SPM9800

Touch me everywhere

I'm a full-freedom mouse with clever 360° touch control™, wireless Bluetooth convenience and a hidden wind-up USB cable for recharging from your notebook. I'll also give you all-day comfort whether you are left or right handed.

Really easy
- 360 TouchControl™ for total navigation
- Works even without a surface
- The charging cable is stored inside the mouse.
- Precise laser sensor
- Low battery indicator keeps you informed of power level

Wirelessly connect to multiple PCs
- Bluetooth enabled - no extra dongle needed

Travel pouch
- Pouch

PHILIPS
sense and simplicity

Highlights

360 TouchControl™

You don't need a mouse pad for this mouse. Philips 360°TouchControl™ lets you scroll through lengthy documents without installing extra software. Designed for easy navigation of spreadsheets, web pages, photos and maps when the notebook is connected to a monitor, so you can still navigate comfortably while relaxing on the sofa and be in full control of the notebook—unlike a notebook touch-pad. Instead of the traditional scroll wheel, its touch sensor gives you the freedom to move in all directions. With your finger on the sensor you can move the cursor smoothly and quickly through 360 degrees.

Works even without a surface

With the 360 TouchControl, the mouse can work even when there is no surface

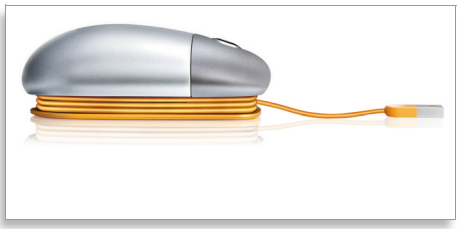
Bluetooth enabled

With Bluetooth technology, the mouse can be connected directly to the notebook without the hassle of dongle

Warns of low power level

The low battery indicator lights up when the power is low.

Hidden USB charging cable



The charging cable is stored inside the mouse. When the mouse is out of battery, just take out the charging cable, and plug in your notebook. You can then continue to use the mouse while charging.
